

# SCANSNAP 6010 iSCANNER

## THE ULTIMATE GREEN FAX MACHINE

In the age where fax remains relevant, security, compliance and business process dominate IT purchase decisions. The **Fujitsu ScanSnap 6010 iScanner** supporting the One Touch Integration platform provides organizations with the ultimate network and cloud-based fax machine, while also serving as the ultimate digital document onramp, transactional kiosk scanner, office document communications solution, and more.

## The ScanSnap 6010 iScanner Answer

The Fujitsu ScanSnap 6010 iScanner and the One Touch Integration offer the following enhanced fax feature set:

- ▶ High compatibility. Easily Integrate into the world's most popular and widely used fax servers, fax services, and Fax over IP (FoIP)
- ▶ Security and Compliance: Network authentication required, encrypted hard disk
- ▶ eDiscovery: Every fax sent has a secure, network accessible electronic copy of the document and transaction record which includes sender, date and time of transmission, number of pages.
- ▶ Key Features: Private and corporate phone books, custom cover pages, bar-code fingerprinting and detection, real time status notification, desktop client interface, fax broadcast ability, and more.
- ▶ Business Workflow. Scanned documents and sent faxes may be integrated into one or more defined business processes and applications including SharePoint, IBM Content Manager, and many other document management, ECM and practice management system(s).
- ▶ Supports automated conversion to searchable PDF, OCR indexing, and more, creating smart documents and reducing errors.
- ▶ The ultimate network attached scanning appliance that works in the cloud and supports web services connectivity anywhere in the world
- ▶ Supports Fax over IP (FoIP), including VoIP Fax capable phone systems like Cisco Call Manager, Avaya Octel and Intuity, Alcatel-Lucent, 3CX, ShoreTel, NorTel Communications Manager, Siemens, Aastra, 3Com, Mitel, Global Crossing SIP trunking, Broadvox SIP trunking, and more.
